MEDICAL REHABILITATION | EMPLOYMENT PLACEMENT | DISABILITY SERVICES

SPECIALTY PROGRAMS

DRIVING EVALUATION AND TRAINING PROGRAM

- 123 participants received services.
- 47% of participants who completed their programs were deemed eligible to drive.
- 46% of participants approved for driving had adaptive equipment recommended.
- 95% of participants reached for follow-up have driven 90 days without an accident.
- 56% of clients reported driving daily and 39% reported driving several times per week 90 days after discharge.

Comments from participants:

"I was happy with the instructors, I'm not used to driving in the city, but the instructors were very good with instructions and navigation through all areas. Thank you."

"My evaluator was very kind and helpful during my evaluation. She made me feel very comfortable and at ease during all parts of the evaluation. She was wonderful to work with."

TWELVE MONTH REVIEW OF PROGRAM OUTCOMES AT THE REHABILITATION INSTITUTE OF KC THROUGH DECEMBER 31, 2015

ASSISTIVE TECHNOLOGY PROGRAM (ACCT)

- 341 participants received services.
- Participants planned to use their assistive technology at work, school or for personal needs to enhance independence or communication.
- Program participants received an average of 3.3 hours of training on equipment.
- 100% of participants contacted were pleased overall with services and would recommend to others.
- 82% of participants contacted for follow-up continue to use their equipment and skills one year after discharge from the program.
